The poster above me has some great links to the missions. It is said that in the expansion reputation obtained has increased so if you want to do this wait until then as it could be a less tiring process. It took me about 2 years and ahalf - 3 months for a farmhouse for this, about 8-10 hours a day, but it's worth it, so they would seem that from the description ("very fast mount") it is about An epic support, and yet requires only 75 guidance skills, making it unique and allowing you to save a good quantity of gold. However, it's not really worth it, IMO. In the end you will need horse riding ability to get a flying mountain, and since then nobody will give a shit if you spent cumbersome time quantities to grind a rather simple cat. IMO from its minced rept, this should be available for both the alliance and horde, I just talked to the boy today on my blood elf and became neutral, unfortunately I can't get missions = (this is a sad Blood Elf Horde has such a Quest RepTing in a ego, you get a special Raptor who I don't know how it looks like you look, but this can clearly see its different from any other fairly sure tiger to get this from the NPC in Winterspring in the North , Named rival frostwind.https: //classic.wowhead.com/npc=57000 People above most have no idea what they are talking about. Give me illulated. This is a special support that is "ly obtainable A supplier in Winterspring. It is for him to allow you to buy it from him, you need a status enhanced with him. To get this status, there is a series of three missions that perform and again and beyond (a research that repeats to go from neutral to friendly, one of the friendly, one of the friendly, one of the friendly to be revered, etc.), once you have exalted With this seller, yo you can buy support from him for 900 g.however, to guide it you must have tiger riding (1) ability. This is the same Used by the elves to drive their normal tigers, so an elf with this ability does not need to train in anything else.ã, but if you are not an elf, you need to get the status enhanced with Darnassus. There is Only a way you can do for Darnassus reputation.in short: it is an incredible result for an elf to get this mountain, and a truly epic result for a gnome, human, or nano to get it.a, I've ever seen an elf with it throughout my game time (of the Ring server land) and certainly no other luck races.good. Just ended up getting the faction of this mountain, I will try to answer many of the guestions posted.yes, you need to be enhanced with Winterersaber trainers in order to buy this mountain. It's not a rare drop or something similar, it's sold to you from Rivart when you hit enhanced. You can only get faction. The first in Neutral, the second one way for friendly, and the third way to Honored. You must do the first quest 30 times to get halfway through neutral to get the second quest. If a reputation mod is used, You will see that quantity of reputation goes neutralÃ, -> Friendly (3000) -> Onorato (6000) -> Onorato (6000) -> Conorato (6000) -> Conorato (21000). In total, ie 42,000 necessary reputation and every search for 50 reputation. Mathematics, which is 840 Quest turn-in to reach excellent. (Human beings with the 10% faction bonus will need to do this 840-84 times, or 756). The first mission is based on a 20% abandonment rate of mission is based on killing a specific number of mobs in Winterfall Village. The third research is also based on killing a number of monsters, but they are extremely difficult Elite Giants and are located on the opposite side of the map in FrostWhisper Gorge.all Three missions give the same quantities of reputation and the second is by far the Faster, so you can decide which to repeat. Assuming that the search takes about 15 minutes to complete (including, going back and forth to leave it), it would take a total of 210 real hours to do search 840 times. Which is about nine days alone, and since no one can play for nine days alone, and since no one can play for nine days alone. Darnassus to ride this mountain, Rival does not teach you. This means that if you are not Night Elf, you must get enhanced with Darnassus before you can buy and learn Tiger Riding. The assembly has not been given any equipment or nothing more in the patch and still seems to be completely unique compared to the other nights Elf Mounts. You can only make every search before having to turn into to do it again. You can not collect a great variety of meats or kill a lot of monsters and get more guests quest to once.and finally, here is a photo so you can see how it appears: http://marvel.poned.com/world % 20of% 20Warcarft /reinsofthewintererspringfrost.jpg(deliberately not connected img Since it is a large picture) Human push reputation is 10%. 50 + (50 x 0.1) = 55You start from neutral (0) and a neutral half (1500) can be unlocked the second Quest.55 x 28 = 1540.I did this first Quest as fast as 18 minutes, and slow as 35 minutes. It mainly depends on the abandonment rate. with a media (average). (18 + 35) / 2 = 26.5 minutes 26.5 x 28 = 12.366Now It's an estimate because you can like to be sure of how often they will lower, and if you have unlocked the second mission, winterfall intrusions, it's not bad when you think about it.now that you have unlocked the second mission, winterfall intrusions, it takes about 15 minutes to get the search, returns, turning. So it's 4 missions per hour. 55 x 4 = 210. That 210 reputation per hour. 55 x 4 = 210. That 210 reputation per hour. So it's 4 missions per hour. 55 x 4 = 210. 5880 per week. Now, how long did you finally have finally reached? Well, find out! From 0 to open the second mission and get reputation in 1540, it took approximately 12,366 hours. Now if you do it to do it 4 hours a day every day (this is not included the days you started the first research, this is only the days you worked on Windfall Intrusion), then the 49th day you will be Exhaled. From many hours of play? Well, it takes 4 hours to get 840 reputation and 49 days of 4 hours of playing game by doing exclusively these missions. 4 x 49 = 196 and with 12,366 initial hours that will take 208,366 hours in ideal conditions. This means that you have not been killed once, you have not emptied your bags, you have not repaired, etc. I suggest you empty the bags before you start. Empty them after you. And ask primarily if you are ready to dedicate 210 hours of your life to a mountain. If you are, then I recommend it. For all those who think they should be lowered to revere, you're wrong. It is much easier to be revered that enhanced and you would see many others of these supports if that was the case, but because you have to be exalted, rarely see someone with this very unique mountain. And about 800g (if you rank 3 pvp) you do more than the newly ground one for 210 hours of straight, so the money shouldn't be a problem. One thing I think would have been cleaned is to have a A-¿Â½. A-¿Â½ capacity on the mountain. If you have noticed the hunters they have as pets all the time and can rush. How nice it would be precipitated on your mountain that has already gone to 100% to 150%. Blizzard read this? my schedule is busier than most of the players, I can play continuously for 4 hours a day, the same search, for 49 consecutive days. So he will take me closer to 3 months to get this mountain, and go well with that. Well IÃ Â/2m at work and wouldn't have time to type all this if I was likely so I was hoping this someone helped him wondering about this impressive mount! Also, say an epic drop is 1/10000, or. 01% Possibility to fall. When you arrive at exalted, you will have killed no less than 1960/10000. That is a 19.6% probability for an epic to fall, statistically. So who knows you could take an epic or two on the road: P, good luck! Augustus This is not a bug, Blizzard has just changed the distance that is possible for the actions of party members influence your research progress. For people who think this research is "ridiculous" and blizzard should make it easier. I completely disagree - the very nature of this mountain is that it is incredibly difficult to obtain and requires great quantity of time and effort. So that it takes its rarity and you only ensure that people doing work actually come to ride on it. You too don't have to be sad and not having life at all to get this mountain, obviously the unsatisfied view of someone that paniche when an object cannot ninja. Myself and about 3 other people on my server were grinding this for about an hour a day for about 2 months, and we are 3/4 of the way there now. I think it's really easy, if you are not really willing to put the time, then read a different topic - they are not really willing to put the time, then read a different topic - they are not really easy. //img33.immageshack.us/img33/2659/frostsaber3edit20ek.jpg Note that meat searches require twice the time. ** Update 7 ** Started: March 17, 8.45 pmht Now: Now: 3rd, 10:12 pmMeat Missions: 490 / 810Percentage Completed: 61.90% Winterspring Trainers Rep: 5000 / 21000.Money: If you do not count epic and blue drops money, and take repair costs out of it; 749G 31S 86B, notice that I started with 76S lol.Epic Drops: 2. Until the end! * EDIT * 10 days after my @ 17 000/21 000! getting there ! It 'been 2-3 weeks since I got it and love it :) Gnome Mage Smolderthorn So, I just started doing missions for it guy tonight at 2:18. So far I have shot in three missions (I have not played all night ... just for a few hours) and are halfway through another now.I've found three decent green so far, and I've got so skinning about forty batteries of various skins, as well as a vendor ton of garbage from mobs.I'm design on agriculture for this installation as much as possible more time in the next few weeks (months?), so I'll post updates to occasionally, for people who are interested. Some answers to some common questions on this forum: 1. meat from bears and Chimaera they are quest items, then you can not carry more than the amount alloted quest. This means that you can have a maximum of 5 Shardtooth 5 Chillwind Meat and meat with you at any time. Meat in matters of banks, too.2. In order to actually get the installation, you need to reach exalted with "Wintersaber trainers" and then you can buy from him. It's not free, I'm sorry. Rivern Frostwind is the only person in this faction, and the only way to get rep with him is making its quests. This is just to get the mount. Unless you are a Night Elf, you need to reach exalted with Darnassus to learn Tiger horse before you can actually use the assembly. And of course, you need to be level 60 to ride, because it's an epic mount.4. The crowds must kill first the search for Rivern droprate have a very poor ... Sometimes you'll have all your meat in about twenty minutes, and sometimes you will be killing for an hour before you're done just quest.5. Yes, getting this mountain takes a long damn time, but this is the beauty of it. Unlike ZG mountains, where you have to be a ninja or simply the good fortune to do it, this support requires an extreme amount of effort to achieve. Maybe some people do not see what there is of so special about it, but I think you should be very proud of yourself if you've got human it. Aveliana 58 Paladin Smolderthorn Back again. A finally end this horrible horrible faction but addictive ! It Kudos to you guys who could get a lock and 2 help othersto to summon! You get one person and 'was hard enough to help her let alone 3!
